

BONE DRY CONCRETE SEALER PRODUCT INFORMATION

COVERAGE:

850 to 900 square feet per 5 gallon pail; depending upon porosity of the concrete.

PRECAUTIONS:

Do not store or use in freezing temperatures. If the Penetrating Concrete Sealer becomes frozen in the container, thaw and agitate before use.

Keep off aluminum and glass, including eyeglasses, as the Penetrating Concrete Sealer could possibly etch the surface. Wash with water immediately.

Keep off asphalt as the Penetrating Concrete Sealer will break down the petroleum base of asphalt.

Leather shoes and gloves will stiffen. Some glazed tile will be dulled.

PROTECTION:

Penetrating Concrete Sealer is slightly corrosive to human tissue. Handle as a caustic solution. Protect skin and eyes. Avoid prolonged breathing of vapors or mist. For ultimate protection, especially in confined areas, use a NIOSH approved respirator and wear chemical goggles or face shield and rubber or plastic gloves.

Consult the Bone Dry Penetrating Concrete Sealer Material Safety Data Sheet for other safety instructions.

FIRST AID:

IF SWALLOWED, do not induce vomiting. Drink lots of water or milk, then drink dilute vinegar, lemon juice or orange juice. Get medical attention immediately.

IN CASE OF EYE CONTACT, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

IN CASE OF SKIN CONTACT, thoroughly rinse off immediately with fresh water.
KEEP OUT OF REACH OF CHILDREN.
